

# Introducing OmniBallot

**The Elections Office is happy to announce OmniBallot as a resource for voters who cannot vote at a polling place or on a paper mail ballot, due to a disability.**

## What is OmniBallot?

- OnmiBallot allows eligible voters, such as voters living with disabilities and military and overseas voters to access, mark, and print their ballot from home, on their home devices and printers.
- OmniBallot is not an online voting system. It simply offers a more secure and accessible method of transmitting ballots.

FOR STATE AND LOCAL GOVERNMENTS
