DAVID H. KNOWLTON, P.E.  
CITY ENGINEER

August 5, 2013

To: Residents and Businesses of Canal Street, between Forest Avenue south to Broadway

Re: Canal Street Drainage, Water and Sewer Improvements, Contract O-38  
**Notice of After Normal Work hour Construction Activity**

Dear Residents and Businesses:

This notice has been prepared to inform you that as part of the above referenced project, the City's Contractor, DeFelice Corporation plans **to perform a water shutdown, after normal work hours tomorrow, Tuesday, August 6, 2013**. DeFelice will be preparing for the shut down starting at 4 pm and the work should be complete by midnight.

The reason for the after hours work is to ensure that Salem State University and direct abutters to the water main do not lose water service during the day. After hours work is not normally part of the above construction project, but may be utilized, from time to time; however, only with prior City approval and notification to abutters who may be affected.

We thank you in advance for your patience and forbearance as we complete this important project. If you have any questions, or would like additional information, please call the Engineering Department at 978.619.5673. For more information on the overall project in general, please visit the City's Engineering Dept. website at: [http://www.salem.com/Pages/SalemMA\\_Engineer/index](http://www.salem.com/Pages/SalemMA_Engineer/index).

Very truly yours,

David H. Knowlton, PE; City Engineer
