SEPTEMBER 21, 2015

1. In regards to Page 13, Section 3, Bullet G, "Special Program enrollment training (i.e. RTI< Athletics, Assessment Tracking and Transportation)", has the District implemented an RTI plan or looking to partner with a vendor to build a solution?

The District has not adopted a comprehensive RTI Plan.

2. In regards to Microsoft 365, what is the level of integration desired by the District?

The ability to smoothly and efficiently export/import data to Office components (e.g. Excel).

3. Since Project Management will be part of the "First year start-up costs", may we add a line in that section for this item?

No, please use the Price Proposal provided. List any costs which need further explanation or break down on line 5.

4. There is one line for SR costs. Do you want us to include the SR for SIS and Hosting in one line or would you prefer that we separate these out into two lines?

Please list the full cost, for each year.

5. On page 7 of the RFP, the student count is noted at 4,200 but the cost proposal is asking for 4,300 students. Will you please confirm that 4,300 students is the correct number to use for pricing?

Enrollment is described as approximately 4,200 students. Pricing is sought for 4,300.

6. Appendix A, Tab Grading, Number 103, "The system's gradebook shall synchronize scheduling deltas from the SIS real-time." What is meant by "Scheduling Deltas"?

Changes to the student's assigned schedule (e.g. the student "dropped" period two Math, and added English).

7. The Proposer's Checklist (pg. 3 of the RFP) lists an item called 'Disclosure of Beneficial Interests Form'; is this form required for submission? If yes, how can we obtain a copy of this form?

No.

8. Page 4 of the RFP references an 'Attachment A' document, which appears to be a separate document from the Price Proposal form laid out on page 4. Is this 'Attachment A' document required for submission? If yes, how can we obtain a copy of this document?

This sentence should refer to "Attachment 1" not "Attachment A."
