

Agenda

August 18, 2016

6:00 pm

120 Washington Street, 3rd Floor

Introduction – quick update on projects from Energy Manager

- Solar – update on Bentley School and Witchcraft heights projects on school roofs
- Salem Power Choice – update on aggregation process for continuing program into 2017
- LED Lighting Projects

Public Comment

General Discussion

- **Solar Installation on Schools** – City has been working with Endless Energy and Footprint Power to work out details on solar arrays on Witchcraft Heights and the Bentley School. City Energy Manager will update on status and steps moving forward for installation. DOER approved \$1.75 million in funding for the project.
- **RETF Facebook Page** – Discuss content for a newly created Facebook page
- **Changing name of the RETF** – Since the issues of the Renewable Energy Task Force extend beyond just renewable energy, there has been interest to change the name to reflect sustainability and resiliency issues as well.

Future Meetings

- Next meeting will be held on September 15th, 2016 at 6pm.
