**COMMUNICATIONS FROM THE MAYOR**

**A RESOLUTION TO RECOGNIZE WORLD DUCHENNE AWARENESS DAY**

**WHEREAS** Duchenne muscular dystrophy (Duchenne) is the most common fatal genetic disorder diagnosed in childhood, affecting approximately one in every 5,000 live male births each year; and

**WHEREAS** the Duchene gene is found on the X-chromosome, it primarily affects boys; however, it occurs across all races and cultures; and

**WHEREAS** Duchenne results in progressive loss of strength and is caused by a mutation in the gene that encodes for dystrophin. Because dystrophin is absent, the muscle cells are easily damaged. The progressive muscle weakness leads to serious medical problems, particularly issues relating to the heart and lungs. People with Duchenne typically live into their late twenties; and

**WHEREAS** Duchenne can be passed from parent to child, but approximately 35% of cases occur because of a random spontaneous mutation. In other words, it can affect anyone. Although there are medical treatments that may help slow its progression, there is currently no cure for Duchenne; and

**WHEREAS** because it is a rare disease, one of our greatest tools in the fight to end Duchenne is raising awareness; and

**WHEREAS:** on September 7, 2019 the fifth World Duchenne Awareness Day will take place and Duchenne organizations around the world will raise awareness for all people living with Duchenne muscular dystrophy;

**THEREFORE** we, the Mayor and City Council of the City of Salem, Massachusetts do hereby recognize September 7, 2019 as World Duchenne Awareness Day and encourage the residents of Salem to increase their awareness and understanding of Duchenne muscular dystrophy.
